**Emergency Dental Care\***

Under the PPO dental plan, you may choose at the time of service either a Preferred Provider Organization (PPO) participating dentist or any non-participating dentist. Under the PPO dental plan, the benefits payable, when services are provided by a PPO participating dentist, are based on a negotiated fee schedule. When services are provided by a non-participating provider, the benefits payable are limited to the reasonable and customary charges, as determined by Aetna Dental. \*Covered emergency services may vary, based on state law.

**Some of the Services not covered under the plan are:**

1. Those for services or supplies which are covered in whole or in part:
  - (a) Under any other part of this Dental Care Plan; or
  - (b) Under any other plan of group benefits provided by or through your employer.
2. Those for services and supplies to diagnose or treat a disease or injury that is not:
  - (a) A non-occupational disease; or
  - (b) A non-occupational injury.
3. Those for services not listed in the Dental Care Schedule that applies unless otherwise specified in the Booklet-Certificate.
4. Those for replacement of a lost, missing, or stolen appliance, and those for replacement of appliances that have been damaged due to abuse, misuse, or neglect.
5. Those for: plastic, reconstructive, or cosmetic surgery, or other dental services or supplies which are primarily intended to improve, alter, or enhance appearance. This applies whether or not the services and supplies are for psychological or emotional reasons. Facings on molar crowns and pontics will always be considered cosmetic.
6. Those for or in connection with: services, procedures, drugs, or other supplies that are determined by Aetna to be experimental or still under clinical investigation by health professionals.
7. Those for: dentures, crowns, inlays, onlays, bridgework, or other appliances or services used for the purpose of splinting, to alter vertical dimension, to restore occlusion, or correcting attrition, abrasion, or erosion.

8. Those for services that Aetna defines as not necessary for the diagnosis, care, or treatment of the condition involved. This applies even if they are prescribed, recommended, or approved by the attending physician or dentist.
9. Those for services intended for treatment of any Jaw Joint Disorder unless otherwise specified in the Booklet-Certificate.
10. Those for space maintainers except when needed to preserve space resulting from the premature loss of deciduous teeth.
11. Those for orthodontic treatment unless otherwise specified in the Booklet-Certificate.
12. Those for general anesthesia and intravenous sedation unless specifically covered. For plans that cover these services, they will not be eligible for benefits unless done in conjunction with another necessary covered service.
13. Those for treatment by other than a dentist; except that scaling or cleaning of teeth and topical application of fluoride may be done by a licensed dental hygienist. In this case, the treatment must be given under the supervision and guidance of a dentist.
14. Those in connection with a service given to a person age 5 or older if that person becomes a covered person other than: (a) during the first 31 days the person is eligible for this coverage; or (b) as prescribed for any period of open enrollment agreed to by the employer and Aetna.
15. Those for services given by a non-participating dental provider to the extent that the charges exceed the amount payable for the services shown in the Dental Care Schedule that applies.
16. Those for a crown, cast or processed restoration unless:
  - (a) It is treatment for decay or traumatic injury and teeth cannot be restored with a filling material; or
  - (b) The tooth is an abutment to a covered partial denture or fixed bridge.
17. Those for pontics, crowns, cast or processed restorations made with high noble metals unless otherwise specified in the Booklet-Certificate.
18. Those for surgical removal of impacted wisdom teeth only for orthodontic reasons unless otherwise specified in the Booklet-Certificate.
19. Those for services needed solely in connection with non-covered services.
20. Those for services done where there is no evidence of pathology, dysfunction, or disease other than covered preventive services.

Any exclusion above will not apply to the extent that coverage of the charges is required under any law that applies to the coverage.

**Dental Care Plan coverage is subject to the following rules:**

**Replacement Rule:** The replacement of, addition to, or modification of: existing dentures, crowns, casts or processed restorations, removable bridges, or fixed bridgework is covered only if one of the following terms is met:

- (a) The replacement or addition of teeth is required to replace one or more teeth extracted after the existing denture or bridgework was installed. Dental Care Plan coverage must have been in force for the covered person when the extraction took place.
- (b) The existing denture, crown, cast or processed restoration, removable bridge, or bridgework cannot be made serviceable, and was installed at least 5 years under the PPO Dental Plan before its replacement.
- (c) The existing denture is an immediate temporary one to replace one or more natural teeth extracted while the person is covered and cannot be made permanent; and replacement by a permanent denture is required. The replacement must take place within 12 months from the date of initial installation of the immediate temporary denture.

**Tooth Missing But Not Replaced Rule:** Coverage for the first installation of removable dentures, removable bridges, and fixed bridgework is subject to the requirements that such dentures, removable bridges, and fixed bridgework are (i) needed to replace one or more natural teeth that were removed while this policy was in force for the covered person; and (ii) are not abutments to a partial denture, removable bridge, or fixed bridge installed during the prior 5 years under the PPO Dental Plan.

Alternate Treatment Rule: If more than one service can be used to treat a covered person's dental condition, Aetna may decide to authorize coverage only for a less costly covered service provided that all of the following terms are met:

- (a) The service must be listed on the Dental Care Schedule;
- (b) The service selected must be deemed by the dental profession to be an appropriate method of treatment; and
- (c) The service selected must meet broadly accepted national standards of dental practice.

If treatment is being given by a participating dental provider and the covered person asks for a more costly covered service than that for which coverage is approved; the specific copayment for such service will consist of:

- (a) The copayment for the approved less costly service; plus
- (b) The difference in cost between the approved less costly service and the more costly covered service.
