For individuals under 65 and small group plan members

ConnectiCare

Pediatric Vision Coverage

Pediatric vision care is an essential health benefit (EHB) under the Affordable Care Act. All of ConnectiCare's Small Group and Individual policies include pediatric vision services for members under the age of 20.

These benefits include:

- Routine eye exam – routine eye care that includes a refraction
- Frames and lenses
  - Frame options:
    - Collection Frames – standard frames allowable under Medicare
    - Non-Collection Frames – all other frames not allowable under Medicare
  - Lens options
    - Polycarbonate
    - Scratch-resistant coating
    - Ultra-violet coating
    - Anti-reflective coating
    - Solid tint/gradient/photochromic
- Prescription contact lenses – hard or soft lenses

Coverage includes one pair of eyeglasses (lenses and frames) per year or contact lenses which include one fitting and set of lenses per year.

ConnectiCare's standard vision exclusions and limitations apply to pediatric vision EHB services.

There is no coverage for:

- Eye glasses and contact lenses for members age 20 and older
- Eye surgeries and procedures primarily for the purpose of correcting refractive defects of the eyes, including, but not limited to: laser surgery, orthokeratology and radial keratotomy
- Vision therapy and vision training

To get a full list of covered and non-covered services, you should refer to your membership agreement or certificate of coverage for complete details or call ConnectiCare at **1-800-251-7722**.

To find participating optical providers, use our *Find a Doctor* tool at **connecticare.com**.
