## Treatment cost calculator

The treatment cost calculator lets you estimate what a treatment or test will cost before you schedule it. Find this tool on [connecticare.com](https://connecticare.com).

The calculator takes into account your plan's copays, deductibles and coinsurance. It lets you see costs for hundreds of medical procedures and tests. And, it lets you compare what your costs may be among different doctors, hospitals, labs and facilities near you.

Here's an example: a search for a lower-back magnetic resonance imaging (MRI) for a member whose plan has a \$2,000 deductible that she hasn't met.

## Mobile apps

You depend on your smartphone or tablet for directions, restaurant reviews and maybe even banking. Why not use it to visit a doctor, order your prescriptions and manage your health care dollars?

Download these from the iTunes or Google Plus app stores today:

### MDLIVE telemedicine

Use your phone or computer to visit a doctor for non-emergency medical issues anytime, from anywhere in the country, for \$40 or less.\* Doctors are board-certified and can order many prescriptions, if needed, for you to pick up at the pharmacy.

### Express Scripts

This app lets you look up prescription drug prices, order refills, set up home delivery for maintenance medicines, and more. Express Scripts is the company that manages ConnectiCare's pharmacy benefit program.

### HealthEquity

Many ConnectiCare members who have qualifying, high-deductible health plans open health savings accounts (HSAs) with HealthEquity. Their app lets you track your savings, view claims and pay doctors from your tax-advantaged savings.
