Directory Of Freestanding Facilities

Participating in the Oxford¹ Network

June 2015

Welcome

This is your Directory of Freestanding Facilities².

This directory is a listing of freestanding facilities that offer services to members enrolled in Oxford¹ products in Connecticut.

Members are encouraged to choose more cost-effective, freestanding facilities, rather than hospitals, for radiology services and outpatient surgery. A freestanding facility is an outpatient facility, or a diagnostic or ambulatory center identified in this directory. At a freestanding facility, deductible and coinsurance still apply. See your plan benefit information for further details.
